

# SAFETY DATA SHEET

Date: 10/06/2011

Version: 2

Page 1 of 6

## 1. Identification of the substance/mixture and company/undertaking

<b>Product name</b>	<b>Clinell Alcoholic 2% Chlorhexidine Wipes Skin</b>
<b>Use</b>	Cleaning wipes for skin
<b>Supplier</b>	GAMA Healthcare Ltd. Customer Services Unit 2, The Exchange Brent Cross Gardens London NW4 3RJ United Kingdom
<b>Contact number</b>	Telephone +44(0) 845 2011 644
<b>E-mail contact</b>	info@gamahealthcare.com

## 2. Hazards identification

<b>Classification</b>	F, R10; Xi, R36; R67; N, R51-53
<b>Health hazards</b>	Eye irritant. Inhalation of vapours may cause drowsiness or dizziness.
<b>Environmental hazards</b>	Toxic to aquatic organisms. May cause long-term adverse effects in the aquatic environment.
<b>Fire and explosion hazards</b>	The liquid is expected to be flammable. Vapour may produce explosive mixture in air in confined space.

## 3. Composition/information on ingredients

<b>Declarable components</b>	<b>Conc (%)</b>	<b>EC No.</b>	<b>CAS No.</b>	<b>Classification<sup>a</sup></b>
Propan-2-ol	50 to 75	200-661-7	67-63-0	F, R11; Xi, R36; R67
Chlorhexidine digluconate <sup>b</sup>	1 to 5	242-354-0	18472-51-0	Xi, R41; N, R50-53

### Other components

Water 25 to 50

<sup>a</sup> See Section 16 'Other information' for full text of the R-phrases.

<sup>b</sup> EU name: D-gluconic acid, compound with N,N"-bis(4-chlorophenyl)-3,12-diimino-2,4,11,13-tetraazatetradecanediamidine (2:1).

## 4. First-aid measures

<b>Skin contact</b>	Intended for use on skin. For industrial use of the liquid, remove contaminated clothing and wash affected area with soap and water. If irritation occurs, seek medical attention. Launder contaminated clothing before re-use.
---------------------	---

# SAFETY DATA SHEET

Date: 10/06/2011

Version: 2

Page 2 of 6

---

<b>Eye contact</b>	In case of contact with eyes, irrigate with water for 15 minutes, occasionally lifting eyelids. Seek prompt medical attention for signs of irritation.
<b>Ingestion</b>	For industrial use of the liquid, if swallowed, wash out mouth thoroughly and give water to drink. Seek medical attention if significant amounts (eg more than a teaspoonful) are ingested, or for any symptoms occurring after ingestion. Do not induce vomiting, unless instructed by medical personnel.
<b>Inhalation</b>	If adverse effects (eg irritation of the airways, drowsiness, or dizziness) occur, remove patient from exposure and give fresh air and rest. Obtain prompt medical attention.
<b>Medical treatment</b>	Show this safety data sheet to medical personnel. Give symptomatic treatment and supportive therapy.

---

## 5. Fire-fighting measures

---

### Fire and explosive properties

The liquid is expected to be flammable. Vapour may produce explosive mixture in air in confined space.

### Extinguishing media

Water spray, carbon dioxide, dry chemical and foam are compatible with the product. Remove containers from fire or cool them with water.

### Specific hazards

When heated sufficiently, product may decompose to form smoke and toxic fumes, gases or vapours, including oxides of carbon and nitrogen, hydrogen chloride, ammonia, and small amounts of p-chloroaniline.

### Protective equipment for fire fighters

Fire fighters should wear an approved self-contained breathing apparatus and full protective clothing.

---

## 6. Accidental release measures

---

### Personal precautions

For industrial spills of the liquid, ensure full personal protection is worn (see Section 8). Ensure all sources of ignition are extinguished. Keep unauthorised personnel from the spillage area.

**Environmental precautions** Prevent leakage of product into water-courses or drainage system by diking with sand or other absorbent material. Contact authorities, water company, and waste-water treatment plant as appropriate if significant contamination occurs.

# SAFETY DATA SHEET

Date: 10/06/2011

Version: 2

Page 3 of 6

---

**Method for cleaning up** Stop the source of leak or release. Clean up spill as soon as possible using non-sparking equipment and machinery. Small spills can be mopped up with dry cloth. Collect larger spill using techniques such as sorbent materials or pumping. Place material in suitable container for disposal in accordance with local and national regulations. Wash contaminated surfaces with water, and collect washings for safe disposal. Follow prescribed procedures for responding to large spills and reporting to appropriate authorities.

---

## 7. Handling and storage

---

### Information for safe handling

For industrial use of the liquid, avoid contact with skin and eyes. Remove sources of ignition. Wear protective clothing as in Section 8. Good general ventilation is recommended.

### Storage

Store in a cool, dry, well-ventilated place, away from direct sunlight. Do not allow to freeze. Keep container closed when not in use.

---

## 8. Exposure controls/personal protection

---

### Occupational exposure limits

EU: None.

UK: Propan-2-ol: long-term exposure limit (8 h), 999 mg/m<sup>3</sup> (400 ppm); short-term exposure limit (15 min), 1250 mg/m<sup>3</sup> (500 ppm).

### Engineering measures

For industrial use of the liquid, good general ventilation is recommended. Where exposure limits may be exceeded, local exhaust ventilation may be necessary.

### Personal protective equipment

For professional use of the liquid, the need for personal protective equipment should be based on a workplace risk assessment for the particular use. Prevent skin and eye contact by wearing chemical resistant gloves (eg rubber, neoprene, PVC) and safety goggles. Where more extensive contact may occur, wear suitable protective clothing (eg apron, sleeves, boots).

PPE should be to European (EN) standards. Consult manufacturers concerning breakthrough times.

---

## 9. Physical and chemical properties

---

<b>Appearance</b>	Moist non-woven wipe
<b>Odour</b>	Alcohol
<b>Melting point</b>	-88 to -90 °C (propan-2-ol)

# SAFETY DATA SHEET

Date: 10/06/2011

Version: 2

Page 4 of 6

---

<b>Boiling point</b>	82 to 83 °C (propan-2-ol)
<b>Vapour pressure</b>	ca. 42 hPa at 20 °C (propan-2-ol)
<b>Specific gravity</b>	No data available
<b>Solubility: in water</b>	Liquid is water soluble
<b>                  in solvents</b>	No data available
<b>pH</b>	5.0 to 8.0
<b>Partition coefficient</b>	No data available
<b>Flash point (typical)</b>	ca. 12 °C (propan-2-ol)
<b>Explosive properties</b>	Vapours may form explosive mixtures with air

---

## 10. Stability and reactivity

---

Stable under recommended storage and handling conditions. No hazardous polymerization.

**Conditions to avoid** Sources of ignition (eg heat, spark, flame)

**Materials to avoid** Oxidising agents, ammonia, and chlorine. Contact with anionic substance will reduce effectiveness of the product.

**Hazardous decomposition products**  
None known.

---

## 11. Toxicological information

---

The preparation has not been tested for toxicological effects. Based on the known effects of the ingredients, the product is classified for human health effects as indicated below.

**Acute toxicity** Not classified as harmful by ingestion or skin contact. Inhalation may cause drowsiness or dizziness. Ingestion of liquid may cause intoxication.

**Corrosivity/irritation** May cause skin and eye irritation.

**Sensitisation** No ingredient has been identified as having sensitising properties.

**Repeated-dose toxicity** Repeated skin exposure may cause contact dermatitis.

**Carcinogenicity/Mutagenicity/Reproductive toxicity**  
No information available.

---

## 12. Ecological information

---

Ecotoxicological data have not been determined specifically for this product, but it is classified as harmful on the basis of the known hazards of the components.

**Mobility** No information available.

**Persistence/degradability** Contains a substance (chlorhexidine digluconate) which is not readily biodegradable.

# SAFETY DATA SHEET

Date: 10/06/2011

Version: 2

Page 5 of 6

<b>Bioaccumulation</b>	No information available.
<b>Toxicity</b>	Contains a substance (chlorhexidine digluconate) which is very toxic to aquatic organisms.

## 13. Disposal considerations

For large-scale industrial use, the liquid should be disposed of by incineration. Do not dispose of via the drains, or by landfill. Disposal must be in accordance with current national and local regulations.

In industry, chemical residues generally count as special waste, and their disposal may be regulated in the EC member countries through corresponding laws and regulations. We recommend that you contact either the authorities or approved waste disposal companies who will advise you on how to dispose of special waste.

General EU requirements are given in the Waste Framework Directive (75/442/EEC) and the Hazardous Waste Directive (91/689/EEC).

The wipes are not flushable or maceratable.

## 14. Transport information

<b>UN No.</b>	3175 With special provisions : IATA A46 , ADR 216 & 274 , IMDG 216 & 274.
<b>Proper Shipping Name</b>	SOLIDS CONTAINING FLAMMABLE LIQUID (contains isopropanol)
<b>Marine Pollutant</b>	Yes
<b>Class</b>	4.1
<b>Label(s)</b>	4.1
<b>Classification Code</b>	F1
<b>Packing Group</b>	II
<b>Packing Instruction</b>	P001
<b>HIN</b>	40

## 15. Regulatory information

### Classification and labelling according to EC Directives

**Classification** F, R10; Xi, R36; R67; N, R51-53

### Symbols and indications of danger

Irritant

Dangerous for the environment

# SAFETY DATA SHEET

Date: 10/06/2011

Version: 2

Page 6 of 6

---

<b>Risk phrases</b>	R10, flammable R36, irritating to eyes R51/53, toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment R67, vapours may cause drowsiness and dizziness
<b>Safety phrases</b>	S2, keep out of the reach of children S26, in case of contact with eyes, rinse immediately with plenty of water and seek medical advice S61, avoid release to the environment. Refer to special instructions/safety data sheet

## UK legislation

Chemical (Hazard Information and Packaging for Supply) Regulations 2009 (SI 2009 No 716) (CHIP4).

Control of Substances Hazardous to Health Regulations 1999 SI 1999/437.

Health and Safety at Work Act 1974 c 37.

## EU legislation

Dangerous Substances Directive (67/548/EEC).

Dangerous Preparations Directive (99/45/EC).

REACH Regulation (1907/2006).

Regulation (EC) No 1272/2008 on *Classification, Labelling and Packaging of Substances and Mixtures*.

Chemical Agents Directive (98/24/EC).

Personal Protective Equipment (EC Directive) Regulations SI 1992/3139.

## Guidance

COSHH Essentials: Easy steps to chemical control.

Occupational Exposure Limits EH40.

---

## 16. Other information

---

**Revisions:** None

**Risk phrase explanations:** R10, flammable; R11, highly flammable; R36, irritating to eyes; R41, risk of serious damage to eyes; R51, toxic to aquatic organisms; R53, may cause long-term adverse effects in the aquatic environment; R67, vapours may cause drowsiness and dizziness.

**Explanatory note:** This SDS refers mainly to the industrial use of the liquid. The product is supplied as packaged cleaning wipes intended for use on skin.

# SAFETY DATA SHEET

Date: 10/06/2011

Version: 2

Page 7 of 6

---

The classification of the liquid component has been assessed according to the calculation method given in 99/45/EC on the basis of available information for the ingredients from supplier safety data sheets.
